PROJECT OVERVIEW

Bhagalpur, one of the Smart Cities, is an ancient town - part of Ang Pradesh. Its economy is dependent primarily on agriculture, silk industry and trading. It is the major medical, educational and shopping hub of nearby smaller towns and villages. It is rapidly expanding its geographical area and is on the verge of massive infrastructure growth. Requirement of commercial, retail and office spaces is gradually picking up and Bhagalpur is emerging as the preferred destination of top brands in all sectors.

A.S. Tower, located on Bhagalpur-Baunsi road which is soon to be converted to four lane National Highway 133E, is easily accessible and reachable. It is about 3 kms from Bhagalpur Railway Station, 1 km from Bhagalpur Bypass road and surrounded by many old and new residential colonies. Many two and four wheeler showrooms lie in immediate vicinity of A.S. Tower, which is ideally situated to cater to Bhagalpur town as well as the aspirational rural population nearby.

A.S. Tower by Mittal Infra shall stand tall flaunting its magnificence at the very onset of Bhagalpur Smart City. Located at the edge of south Bhagalpur that will soon transform into the gateway of New Bhagalpur, it is the ideal commercial hub. AS Tower's strategic location coupled with exemplary design makes it the perfect and prestigious addition to the Bhagalpur's skyline and emerging opportunities in office, shopping, fooding and entertainment spaces. It is the perfect hangout space for family and friends!
